

Aniket Raj

Software Development Engineer

Delhi, India | +91-7900905797 | sm.aniketr@j@gmail.com | portfolio | github | linkedin

Professional Summary

Final-year Computer Science undergraduate with a strong foundation in Data Structures & Algorithms, Operating Systems, Computer Networks, and DBMS, backed by 1150+ DSA problems solved on LeetCode. Hands-on experience building, testing, debugging, and shipping backend services, REST APIs, and full-stack applications using Python and JavaScript/TypeScript, with practical experience in concurrent, distributed, and multi-agent systems. Comfortable working across unfamiliar codebases, collaborating through code review, and writing maintainable, tested software.

Technical Skills

Languages:	C++, Python, JavaScript, TypeScript, SQL
Core CS:	Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, DBMS
Backend:	FastAPI, Node.js, Express.js, Async/Concurrent Programming, SQLAlchemy, REST API Design
System Design:	Low-Level Design, High-Level Design, Microservice Architecture, Scalable/Distributed Systems
Databases:	PostgreSQL, MySQL, MongoDB, SQLite, Redis
Engineering Practices:	Git/GitHub, Debugging, Unit Testing, Code Review, CI/CD, Agile

Experience

Codec Technologies

May 2026 – Jul 2026

Artificial Intelligence Intern

Hybrid

- Architected backend ETL pipelines in Python and built data validation/QA frameworks to enforce business-rule correctness.
- Built retrieval pipelines involving chunking, indexing, and embeddings for low-latency query resolution; automated reporting, cutting manual effort by 60%.
- Collaborated with engineers on API design and workflow automation, incorporating feedback through iterative reviews.

Amdox Technologies

Feb 2026 – Apr 2026

Web Developer Intern

Remote

- Developed responsive, high-performance web apps using React, Node.js, and MongoDB; integrated REST APIs into an existing multi-developer codebase.
- Participated in code reviews and debugging sessions, incorporating senior-engineer feedback into subsequent iterations.
- Learned to navigate an unfamiliar codebase quickly while maintaining consistent quality across a shared repository.

Ramyoz Solutions, Punjab

Jun 2026 – Aug 2026

App Developer Intern

On-site

- Built AI-enabled cross-platform mobile apps in Flutter, improving app-state management and UI performance alongside senior developers.

Projects

Loco Pilot – Distributed Multi-Agent Software Engineer

GitHub

Python, FastAPI, LangGraph, MCP, Redis, Docker, Playwright, GitHub API

- Engineered a multi-agent software engineering system with specialized architecture, backend, frontend, debugging, testing, and review roles that turns natural-language requirements into production-ready code.
- Integrated GitHub API and MCP servers with persistent memory for self-healing and automated pull-request generation.

NightOwl – AI-Powered Job Application Automation Platform

GitHub

Python, FastAPI, Playwright, MySQL, Next.js, AI Agents, ChatGPT, Gmail, WhatsApp

- Built an end-to-end job application automation platform with FastAPI, MySQL, Playwright, and Next.js, orchestrating job discovery, form analysis, candidate-data mapping, and browser workflows through a persistent job queue.
- Implemented dynamic application handling for text fields, dates, checkboxes, radio buttons, dropdowns, autocomplete, resume uploads, email verification, and multi-page navigation.
- Engineered concurrency-safe queue processing, database-backed tracking, Gmail and WhatsApp integrations, and independent final-submission safety checks.

DeepLens – Enterprise Multi-Agent RAG Platform

GitHub

Python, FastAPI, LangGraph, LangChain, ChromaDB, FAISS, Docker

- Architected a multi-agent backend with routing, retrieval, reasoning, and response-generation agents on an async FastAPI service, using ChromaDB and FAISS for hybrid semantic search.
- Designed document ingestion and processing for PDFs, DOCX, PPTX, images, and emails, with session memory and multi-model integration.

Document Saathi – Secure Family Document Vault

GitHub

Flutter, Supabase, SQLite, Firebase

- Built a cross-platform document vault with PIN-based access control and encrypted, permissioned storage, adopted by 20+ users.

Education

Indian Institute of Information Technology, Manipur

2023 – 2027

B.Tech in Computer Science & Engineering (AI & Data Science)

Certifications & Achievements

- Solved 1150+ DSA problems on LeetCode
- Secured 1st Place in the Website Development Competition at IIIT Manipur
- Ranked 88 in HackerX 2025 Hackathon
- NPTEL – Business Analytics
- NPTEL – Information Retrieval
- NPTEL – Advanced Distributed System
- MongoDB Developer Learning Path – MongoDB University (2025)
- Languages: English (Fluent), Hindi (Native)
